

## THE MORELLO CHERRY

The Morello cherry tree (*Prunus cerasus*), also called the acid cherry tree, is originally from Eurasia from the Balkans to India).

The fruit is a deep red drupe, whose pink and acidulous flesh does not adhere to the stone, which is smooth and globular.

## CRÈME DE GRIOTTE

18% VOL.

MORELLO CHERRY

Trénel's Crème de Griotte is a limpid, brilliant orange-red in colour, with a fine nose of bitter almonds reminiscent of kirsch. The alcohol makes its unctuous palate deliciously warming.

Enjoy it alone or with a Crémant de Bourgogne.
